

CHROMIUM STYLE

CHROMIUM STYLE unites form and function in to an incredibly convincing sound experience. The elegant cabinet fulfils highest design standards and their rounded sides reduce sound divergence through the sound conduction. Hand-polished high gloss varnishes complete the noble overall impression, turning a 'loudspeaker' into a premium ornament in your living room.

Technically the CHROMIUM STYLE is also convincing. The sophisticated ribbon tweeter stands out for crystal clear heights.

Titanium coated polypropylene diaphragms provide the highest linearity and a high-fidelity sound.

CHROMIUM STYLE reproduces music and surround-sound with the most maximum of dynamics. Thanks to the bass reflex tubes with trumpet flanging, even deep movie grumble is displayed with ease. The outstandingly detailed manufacturing finds its finish in a diligent gold-plated connection terminal, so that high-end lovers will also have fun with this series.
